### EXPERIENCE

#### WWDC 2019 Scholar · Apple

JUN 2019 · SAN JOSE, CA

Awarded a scholarship to attend Apple's 2019 Worldwide Developers Conference in San Jose, California for developing an interactive Swift Playground using SpriteKit.

Networked with Apple engineers and designers to learn about the latest in iOS development and to receive feedback on my apps.

#### iOS Developer · Cornell AppDev

OCT 2019 - PRESENT · ITHACA, NY

Automated the log-in process and built out an onboarding flow for Eatery, an app that tracks the meals at dining halls that over 3,500 students use daily.

Started development of CourseGrab, an app that sends students notifications when a full class opens up and is used by over 3,000 students. Worked on building out the user interface and setting up networking with a team of designers and backend developers.

#### Java and Web Instructor · Darien Library

MAR 2017 - JUN 2019 · DARIEN, CT

Taught 20 students how to develop games using Java and how to build their own website with HTML and CSS.

#### Teen Advisory Board Secretary · Darien Library

SEP 2017 - JUN 2019 · DARIEN, CT

Served as Secretary of Teen Advisory Board which organized community and volunteering events.

Automated the process of signing up thousands of kids for summer reading as a Children and Teens Services Intern.

### EDUCATION

#### Cornell University · Computer Science

AUG 2019 - MAY 2023 · ITHACA, NY

**GPA 3.47 · College of Engineering**

#### Darien High School

AUG 2015 - JUN 2019 · DARIEN, CT

### APPS

#### Rong

Most recently released game built using SpriteKit and featured on the App Store with over 1,000 users.

#### Detour

First released 3D game built using SceneKit with 3,500 users. Modeled assets with MagicaVoxel.

#### DHS Schedule

Schedule app I built for my high school using UIKit with over 500 users.

#### Gummy Gap

First published app built using SpriteKit with Game Center support and has almost 4,000 users.

#### Mining Madness

Second published app built using SpriteKit with 400 users.

### SKILLS

#### Programming

Xcode · Swift · Java · Python · Git · HTML · CSS

#### Development

Firebase · UIKit · SpriteKit · SceneKit · CocoaPods

#### Design

GIMP · Sketch · Zeplin · Figma

### INTERESTS

Rubik's Cube Speedsolving

Piano

PC Building
