

Reade Plunkett

iOS Engineer

EXPERIENCE

iOS Engineer · Wellnest

MAY 2020 - PRESENT · ANN ARBOR, MI

- Developed two MVPs for a mobile journaling app for college students to practice mindfulness with 1,300+ TestFlight users.
- Built v1 fully using SwiftUI and v2 using UIKit.
- Implemented a scalable Firebase backend with end-to-end database encryption, storage, and cloud functions.

iOS Engineer · Bear & Bean

SEP 2020 - PRESENT · ITHACA, NY

- Consulting project for the head coach of Cornell's D1 varsity field hockey team.
- Developed *HockeyTag*, an iPad app that streamlines the process of scripting video analysis for field hockey games and is scalable to other sports.

iOS Engineer · Cornell AppDev

OCT 2019 - PRESENT · ITHACA, NY

- Worked on *Eatery*, an app over 3,500 students use daily to track the meals at dining halls.
- Automated the log-in process and built out an onboarding flow
- Developed *CourseGrab*, an app that sends students notifications when a full class opens up and is used by over 3,000 students.
- Worked on building the user interface and setting up networking with a team of designers and backend developers.

Java and Web Dev Instructor · Darien Library

MAR 2017 - JUN 2019 · DARIEN, CT

- Taught elementary and middle school students how to develop games using Java and how to build websites with HTML and CSS

AWARDS

WWDC 2019 Scholar · Apple

JUN 2019 · SAN JOSE, CA

- Awarded a student scholarship to attend Apple's 2019 Worldwide Developers Conference in San Jose, California.
- Developed interactive Swift Playground using SpriteKit.
- Networked with Apple engineers and designers about the latest in iOS development and received feedback on my apps.
